DDR3 SO-DIMM

All Timetec modules are built from strictly selected premium chip ICs for high-performance potential to allow excellent stability and backed by Timetec's advanced replacement program. All memory modules are engineered to perform in even the most extreme environments and rigorously working to ensure that each module meets our stringent performance.

Main Feature

- Speed start at 1333MHz
- Selected IC

Specifications

Type	Notebook		
Module Type	204 Pin SO-DIMM Non ECC		
Dram Conf	256x8, 512x8		
Frequency	1333MHz	1600MHz	1866MHz
Data Transfer Bandwidth	PC3-10600	PC3-12800	PC3-14900
Latency	CL9	CL11	CL13
Voltage	1.35V / 1.5V
